

MESH:

Mesh is a knit fabric, similar to a web in that it has many connected holes in it, giving the fabric an open, net like appearance. In clothing, Mesh is often defined as a fabric that has a large number of closely-spaced holes. It is used primarily for Sports clothing, such as Football (Soccer), Rugby, Baseball and all other outdoor field sports.

The term 'mesh' is in general a term used for fabric with open spaces between the Yarns and is available in a wide variety of constructions including Woven's, Knits, Laces or Crocheted fabrics. It is similar to a Pique knit, but with a more 'open' texture for increased breathability and is a larger knit than a 'cool weave'.

No	Fabric Name	Construction	Width	Picture
1	Interlock & SP Mesh (AVCIS60018)	AVCIS60018	152 cm
